7DCHEM enters preliminary distribution agreement with Jincheng Petrochemical for the Ukrainian market

Shanghai, September 2026 – During the 23rd International Chemical Industry Fair (2026 ICIF) held in Shanghai, Yan Dexi, Deputy General Manager of 7DCHEM, met with representatives from Jincheng Petrochemical at Booth E7. The two parties have reached a preliminary distribution intent covering 45 chemical products of Jincheng Petrochemical for the Ukrainian market.

Jincheng Petrochemical is committed to green petrochemical manufacturing with a comprehensive product portfolio covering 45 core chemical products, including specialty oils, olefins, aromatics, paraffin & specialty waxes, petroleum coke and needle coke. The company builds a green value chain from raw materials to end applications. With advanced production facilities and stable capacity, Jincheng Petrochemical can continuously supply high-quality chemical raw materials complying with EU regulations such as REACH and CLP, serving downstream industries including coatings, rubber, plastics and lubricants.

Under the terms of the preliminary arrangement, 7DCHEM will act as the designated distribution partner to market, sell and deliver Jincheng Petrochemical's product portfolio across Ukraine. Leveraging 7DCHEM's established local network, Poland warehousing capacity and deep regulatory expertise in Ukraine, the cooperation aims to expand the footprint of Jincheng Petrochemical's chemical products within the Ukrainian industrial market.

Jincheng Petrochemical delivers a diversified range of high-quality chemical raw materials, serving multiple downstream sectors. The partnership combines Jincheng Petrochemical's reliable manufacturing capability and stable product supply with 7DCHEM's mature cross-border supply chain and local market insights in Ukraine. Both parties expect to support Ukrainian industrial customers with consistent product availability and professional technical service.

Yan Dexi, Deputy General Manager of 7DCHEM, commented: "We are pleased to establish this cooperation with Jincheng Petrochemical. This preliminary distribution agreement strengthens our product offering for Ukraine. Our local market knowledge and logistics infrastructure will help bring Jincheng Petrochemical's quality chemicals to end users efficiently."

A representative from Jincheng Petrochemical added: “7DCHEM’s proven experience in the Ukrainian market makes them an ideal distribution partner. We look forward to exploring market opportunities together and growing our presence in this region.”

The parties will continue finalising the detailed terms of the formal distribution contract in the subsequent phase.
