Shanghai Dingwujin Chemical: 150 Staff - Leading China-Europe Chemical Trade

New Company Launch: Specialized Chemical Distribution & Global Supply Chain Services

Shanghai Dingwujin Chemical Co., Ltd. focuses on global chemical distribution and integrated supply chain services. It operates a professional system covering hazardous chemical distribution, international trade, and technical services, with 7 member enterprises under its group.

With a 150-person professional team, the company covers international trade, compliance certification, supply chain logistics, technical services, and data analysis, forming a specialized, international, end-to-end service system.

Strategic Positioning: Direct Supply from China + Local Service in Europe

The company adopts a dual-core strategy: Direct Supply from China + Local Service in Europe. Leveraging stable domestic resources and local European service networks, it precisely meets global chemical procurement needs.

Core Market Layout

Region	Service Focus
Central & Eastern Europe (Poland, Germany, Netherlands, Romania, etc.)	Stable supply + local warehousing + rapid response
Ukraine	Post-reconstruction chemical raw material supply
Arabic-speaking regions	Customized chemical solutions
Spanish-speaking regions	Latin America & Southern Europe market expansion

The company operates dual warehouses in Poland with spot inventory, enabling fast delivery across core European regions. Standard lead time: 15 working days by rail, 35 working days by sea; priority delivery service is available for urgent orders.

Six Professional Teams: Full-Coverage, Precision Service

Team	Core Functions	Key Capabilities
Chemical R&D Team	New product development, process optimization	Standardized quality system, full-process QC
Laboratory Technical Team	Rapid diagnosis, formulation customization	48-hour turnaround, custom formulation & testing
International Trade Team	Overseas expansion, client management	Deep European market expertise, tender familiarity
Compliance Team	International certification, regulatory compliance	REACH, CBAM, CLP, ESG full-cycle compliance
Supply Chain Logistics Team	Global logistics, warehouse management	Door-to-door delivery, delay compensation
Data & After-sales Team	Pre-sales consultation, technical support	24/7 multilingual response, full-cycle service

Team Synergy Advantages

- R&D-driven quality control & continuous process optimization

- Expert compliance: zero-risk exports with REACH/CBAM/ESG expertise
- Trade professionalism: deep knowledge of European tender & procurement practices
- Efficient logistics: dual European warehouses, fast delivery
- Reliable after-sales: multilingual, 24/7 technical support

Core Service Capabilities

Service Module	Details
Global Chemical Sourcing	Aligns with Beihua Network; bulk bidding
REACH & CLP Compliance	REACH registration, SDS drafting, CLP labeling
Carbon Footprint Accounting	ISO 14067, bilingual reports
ESG Reporting	GRI-standard reports
International Logistics	Sea/air freight + customs + last-mile delivery
Quarterly Price Lock	Long-term framework, fixed quarterly pricing

Why Choose Us

- Strong capital: with a 150-person professional team, supports large long-term orders
- Full-chain coverage: 7 enterprises + 6 teams, one-stop delivery
- Regulatory expertise: deep REACH/CBAM/ESG compliance experience
- Mature experience: serves CEE, Ukraine, Arabic & Spanish markets
- Local delivery: dual Polish warehouses, fast European distribution

Exclusive Offers for New Clients

- Free European scarce chemical list + weekly real-time quotes
- Free one-stop REACH & CBAM compliance pre-review
- Custom long-term supply + direct-to-port solutions

Future Outlook

Shanghai Dingwujin Chemical will continue to deepen global chemical supply chains. Backed by a 150-person team, domestic resources and Polish dual warehouses, we aim to be a reliable one-stop chemical solution provider.

We invite Chinese chemical enterprises to expand overseas with us, and welcome global buyers for cooperation. Experience efficient delivery via Direct Supply from China + Local Service in Europe.
